

Safety Policy

ANDERSON GROUP of COMPANIES

It is the policy of the Anderson Group of Companies to strive for the highest safety standards on our projects. Safety does not occur by chance. It is the result of careful attention to all company operations by those who are directly and indirectly involved. Our employees at all levels must work diligently to execute the company's policy of maintaining safety and occupational health.

The Anderson Group of Companies safety program has been developed to assure compliance with relevant legislation and appropriate codes of practice with particular emphasis on the occupational safety and health of our employees. It is the obligation of all employees to be knowledgeable of the standards established by these laws and guidelines and to implement the rules and regulations contained therein on projects under their direction.

Regard for the safety of the general public, our own employees and subcontractors is a supreme responsibility of all levels of our organisation. We intend to prevent any human suffering, accidents even minor ones, causing pain, both physical and mental. Prevention of injury and illness is a goal well worthy of our achieving.

A safe operation is organised clean and efficient. If every employee views accidents in the same way, we consider all other aspects of our operations, we will be in a better position not only to control accidents but also to improve the total performance of our Company. It is therefore of utmost importance that all aspects of our training program be strictly adhered to and that the intent of this program be followed to the letter. Any recommendations to improve our safety program are encouraged and welcome.

Darren Anderson
GROUP MANAGING DIRECTOR
